

About Janeeva

Vendor Performance Management Solutions for Government Agencies

Janeeva provides solutions to optimize the value of vendor relationships and maximize performance

Managing vendors for performance and contractual obligations is a challenge. Government agencies need tools to ensure that the delivery of contracted services meet Performance Work Statements (PWS), Service Level Agreements (SLA), cost, delivery and quality goals. Janeeva solutions are designed to effectively manage vendor performance, and assure the transparency of this complex array of contractual vehicles.

Janeeva Assurance™ provides an accurate and timely window into your portfolio of vendors and contracts to drive greater accountability. Janeeva provides an automated process to collect, aggregate, calculate and communicate critical metrics. Personalization and role-based access guarantee organizational security while each user can customize their own dashboard. Automated alerts reduce the time to problem identification and Janeeva Assurance™ offers best practices to define, resolve and escalate critical problems.

Government Agencies and their Vendors face many challenges to make contracts successful

Contract Officers (CO's), Contracting Officer Technical Representatives (COTR's) and project managers need a better way to analyze data than the same old spreadsheets and email. Use Janeeva Assurance to;

- ♦ Automate problem identification
- ♦ Establish and execute against project requirements and objectives
- ♦ Generate timely reports to monitor performance
- ♦ Effectively manage incentives, penalties, credits, and charge-backs
- ♦ Quickly communicate changes in scope, PWS, contracts and services
- ♦ Analyze and compare vendor performance to improve outcomes and quality
- ♦ Track and resolve issues before they become recurring problems

Janeeva Assurance™ offers a comprehensive suite of products for Vendor Performance Management

Performance Manager, Monitor vendor and project performance

Change Manager, Automated and consistent change management process

Issue Manager, Single repository for all issues

Portfolio Manager, Visibility into vendor activities across the organization

Janeeva Summit™, Communication and collaboration forum
